## **VA Hospital, located in Wood, WI**

A 100% make up air multi-zone unit with 55 Tons of DX cooling, and hot water heating section to replace an existing Govrenair unit with a service corridor.

**Representative** : Milwaukee Trane Co. 11400 W. Theodore Trecker Way, W. Allis, WI 53214  
Jim Steele P 414-266-5200 ; F 414-266-5216

4 scroll compressors and 12 rows of evaporator coils will condition 7,800 CFM of fresh air from 95 / 78 deg. F to 47.4 / 47.3 deg F discharge air temperature.

Condensing section EER 13.1 and total unit EER 10.3.

Replacement double deck multi-zone with service corridor.

Pre-heat hot water coil with face and bypass dampers and a hot water coil in the hot deck.

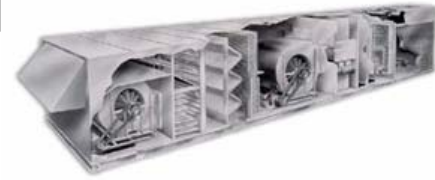

Steam humidifier, 30% pleated and 85% bag filters

Oversized condenser surface with energy efficient condenser fan motors
